

Global Titanium Conference 2020

Qingdao-Shandong, China
Sep. 16-17, 2020

Welcome to the Global Titanium Conference 2020

REGISTRATION INCLUDES // Entry to all sessions for 3 day programme // Lunch and tea breaks during programme // Welcome dinner on Sep.16 and conference dinner on Sep 17// Visit factory Sep.18 // Delegate pack + Conference proceedings // Delegate Messenger System Access

Global Titanium Conference 2020

Sep 16-17, 2020 Qingdao, China

Contact: Mrs. beth xiang
Email: beth@ruidow.com
Tel: 86 15301038671
Mob: 86 13264019072

In 2019, China's titanium industry will overcome the adverse effects of trade friction, and the output and export volume of major products will reach a new high, which is hard-earned. At the beginning of 2020, China and other countries in the world have been affected by the Covid-19, almost all enterprises are affected. In the first quarter, domestic enterprises are generally faced with the difficulties of periodic shutdown and export shrinkage in the second quarter. At the beginning of July, the prices of domestic ilmenite, TiO_2 pigment and other products began to pick up, some products prices stopped falling, and the overall operation of the industry improved.

At present, the enterprises in the industry are still faced with the problems of high cost of raw materials, low price of finished products and squeeze of profits. At the same time, some new projects will be put into operation. In the current situation that the overall demand needs to be restored and the intensity of competition will continue to rise in the future, what changes will happen to the industry structure? How should each enterprise deal with it? "2020 Titanium Feedstock conference" will invite representatives of relevant industry associations and well-known entrepreneurs to make a comprehensive interpretation of the future development direction of the industry. Ruidow invites you to meet in Qingdao, China to explore the new direction of China's titanium industry.

TOPICS

AGENDA

Sep 16 2020 Registration (9:00-21:00)

Sep 17 2020 Main Forum (8:30-12:00)

Discuss (16:30-17:30)

Exhibition (8:30-17:30)

- **Economy and policy**
 - China's economic situation and development of titanium industry
 - New changes of titanium market under China's economic transition period
- **Titanium feedstock**
 - The main ilmenite resources development status
 - Analysis of emerging ilmenite market competitiveness
 - China ilmenite market situation and development direction

Global Titanium Conference 2020

Sep 16-17, 2020 Qingdao, China

Contact: Mrs. beth xiang
Email: beth@ruidow.com
Tel: 86 15301038671
Mob: 86 13264019072

TOPICS

- **Titanium metal**
 - China titanium sponge/titanium materials development status and Prospect
 - Titanium materials Application in aviation industry
 - Application and Prospect of titanium in ocean science and engineering
 - Application of titanium in 3D printing and other fields
 - Application and Prospect of titanium in medical industry
 - Application and Prospect of titanium in daily life
- **TiO₂ pigment**
 - China and the global TiO₂ pigment industry development trend
 - The status and development trend of Chinese chloride TiO₂ pigment
 - TiO₂ pigment import and export of China in 2020 and prospect in 2021

WELCOME TO Qingdao

---Qingdao, The “ World Beer City”

Qingdao, also known as island city, is a vice provincial city in Shandong Province. It has been approved by the State Council as an important coastal central city, a coastal resort and tourist city, and an international port city. By 2019, the city has jurisdiction over 7 districts and 3 county-level cities, with a total area of 11293 square kilometers. In 2019, the total permanent population of the city is 9.4998 million.

Part of Qingdao City

Qingdao port

Qingdao port is the port of Qingdao City, Shandong Province, China. It is located on the Bank of Jiaozhou Bay, Shandong Peninsula, bordering on the Yellow Sea, facing Japan and the Korean Peninsula across the sea. It is China's international trade port and transit hub along the Yellow River Basin and the west coast of the Pacific hub.

Qingdao International Beer Festival was founded in 1991. It opens on the second weekend of August every year for 16 days. It is a national large-scale festival integrating tourism, culture, sports and economy and trade. It is also a beer festival in Asia. Today, beer festival has become a grand festival to highlight the unique advantages and charm of Qingdao city. Beer is used as the medium to show the Qingdao beer company and the city. Since it was held, breweries from dozens of countries, regions and domestic have participated in the event, with more than one million tourists from all over the country.

Main Services:

Price Quotation: in-time, fast and real information of market price and industry news of related products, to provide basis for you to have a clear view of market situation;

Market Comment: write market analysis articles with first-hand information and to provide references for you to estimate the market tendency;

SMS Quotation: provide the product price information of the day accurately and timely so that you can always know the market trend anytime and anywhere;

Industry Data: mainly include price, production, import and export data of the products of relevant industries as well as the related analysis report to provide the data support to you for making business planning and decision;

Electronic Journal: to provide the national and international clients with monthly report, quarterly report and annual report in both Chinese and English with the contents covering the analysis on national and international market movements, the production, investment of the relevant industries as well as the forecast to the future market. The main monthly publications include *Rare earth Monthly*, *Zirconium Monthly*, *Titanium Monthly* and *Tungsten Monthly*, etc.

Industry Conference: Ruidow initiates and hosts the Industry Conferences for the relevant products. We will invite domestic and international producers, suppliers, investors, traders as well as government officials to attend to have a discussion on the industry situation and future development; we also participate in the organization of the conference held by other organizers, such as "Real Earth Sophisticated Experts Meeting", "Baotou Real Earth Industry Forum", etc. The "Global Zircon Industry Conference" held by Ruidow is already a remarkable global conference in zircon industry. There are over 400 delegates attending every time. "Real Earth Market Seminar" and "Global Titanium Feedstock Conference" are also influential conferences in China and outside China. "China Tungsten and Tungsten Carbide Market Seminar" is also well accepted;

Column Cooperation: Ruidow started to cooperate with *China Non-ferrous Metals* in 2013 to jointly open the Column for real earth on this newspaper, providing introductions to national and international clients the current real earth market movements;

Specific Project Research: provide specialized research work to clients who have special requirements;

Advertising Service: provide advertising business for both domestic and international clients on the official website, conference publication, real earth special page and electronic journal in order to promote the image and improve the reputation for enterprises.

Value-Added Services

B2B Platform: a business trading platform covering multi-product and full directions, to build a powerful one-stop shopping platform for enterprises;

Technology Consulting: to solve problems of production and scientific research with the support from numerous industry experts;

Market Research: a large scale investigation and survey on segmentation industries, provide information support to enterprises on industry status and industry development trend;

Enterprises Website: one-click enterprise shops, personalized web page, to build web advertising platform for the enterprises.
